

Hi everyone, it's Vera. From Queen Gypsy Restaurant.

I just wanted to reach out to everyone in this unique and weird time. I hope and trust everyone is healthy and safe. On the recommendation of organizations such as BIA and the request of friends and their families, I have decided to offer some family size meals for takeout to our community.

This way people can have a night free of cooking while still putting a healthy home cooked meal on the table for their loved ones. The food is very easy to reheat and eat, or perfect for freezing for future use. Food should be sealed in the fridge or freezer air tight and it will keep very well, no preservatives are used in the preparation of the food.

Cleanliness precautions and how to pay:

All cooking would be done under pristine clean conditions, as usual. In an effort to keep myself and the community healthy we are also implementing a few new guidelines as well. Firstly we will have disposable gloves available, and offer them to any customers during the pick up process. We are cleaning and sanitizing heavily, but would like to take extra and all precautions. A disposable bin to dispose of your gloves will be available. The door will be propped open so as to avoid handling it. Cash will be dealt with in a professional, clean and sanitary fashion. Exact change would be appreciated and would result in less handling of the money itself. Regular interact transactions would be available as well.

You can place an order by email to me directly and include your phone number so I may call you to confirm the order and let you know when it can be picked up.

You have not placed your order until receiving A CONFIRMATION EMAIL or PHONE CALL IN RETURN from me to confirm your order. And I will also tell you when it should be ready for pickup.
