Project # 18-1380/11-2380

NOTICE OF TEMPORARY ROAD CLOSURE Watermain Replacement and Improvement Queen Street West and George Street

The Region of Peel has been working in your neighborhood to replace the watermain along Queen Street. This work is required to maintain and improve existing water services.

At this stage in the project, we need to install new watermain pipes through the intersection of Queen Street West and George Street to replace the aging pipes.

Traffic impacts

A temporary road closure will be required to complete this work. The road closure is expected to occur from **Friday, October 28, 2022, at 9:00 a.m. until Tuesday, November 1, 2022, at 9:00 a.m. (weather dependent).**

- Our works are planned to take place between 7:00 a.m. and 7:00 p.m. to minimize disruption and reduce noise levels. However, these hours may be extended, and overnight work may take place depending on the progress of work and weather. This would be done to ensure the work finishes on time and no further closures take place at this intersection.
- George Street will be closed to all northbound and southbound through and left-turning traffic at Queen Street West.
- On Queen Street West, no left turns will be permitted at George Street. Only right turns and Queen Street West through traffic will be permitted.
- During this time, a detour route will be clearly marked with road signs. Please see the **attached map** for the detour route.
- Residents who live on the street will have access to their homes. Access to businesses will be maintained. There will be no on-street parking for the duration of this work.

This road closure may cause traffic delays. We ask for your patience and will try to minimize any delays.

Keeping you informed

Weather and other unpredictable events may change the date of these traffic impacts. Receive timely project updates right to your inbox by signing up for e-notices at peelregion.ca/construction

Information on this construction project can also be found at peelregion.ca/downtownbrampton

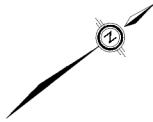

Safety during construction

Construction zones require extra caution to keep everyone safe – pedestrians, cyclists, drivers, and construction workers. When driving, walking, or biking through the construction area, please be aware of your surroundings, watch for construction crews and other road users, slow down, account for delays, and consider other routes if possible. To learn more about how to stay safe in construction zones, visit
