Project 18-1380/11-2380

PROJECT UPDATE
Watermain Replacement and Improvement
Diplock Lane

We regret to inform you that the watermain construction work on Diplock Lane has been temporarily delayed.

The Region of Peel was planning to bring the new watermain into service by transferring from the old watermain to the new watermain. Due to supply chain issues, the construction start date has been delayed as work cannot take place until the underground infrastructure is marked on the ground.

Construction timelines

We are working to determine when the proposed works may resume. We will temporarily be reopening Diplock Lane by the end of the day on Friday, October 22, 2022, until we can resume this work.

Keeping you informed

We will deliver more detailed information to your home closer to the new proposed construction start date. To receive timely updates to your inbox, sign up for e-notices at peelregion.ca/construction
Information on this project can also be found at peelregion.ca/downtownbrampton

Safety during construction

Construction zones require extra caution to keep everyone safe – pedestrians, cyclists, drivers, and construction workers. When driving, walking, or biking through the construction area, please be aware of your surroundings, watch for construction crews and other road users, slow down, account for delays, and consider other routes if possible. To learn more about how to stay safe in construction zones, visit peelregion.ca/construction/workzonesafety

Thank you for your patience as we complete this necessary work. This work will allow us to continue providing you with high quality tap water. If you have any questions, please contact us.
